Easypano Tourweaver Pro Crack Category:Video editing software Category:Gemstone Software Category:Windows multimedia softwareQ: Can I use iTunes for Wi-Fi sync on a Windows 8 PC? I use iTunes to sync music to my iOS devices. My music library is on a Mac. Can I also use iTunes to synchronize my music library to a Windows 8 device? A: If you download iTunes on a Windows 8 machine, you should be able to run it as well on a Windows 8 machine. However, you will only be able to sync to other Windows 8 machines (same iTunes version). It seems that iTunes is not capable of syncing music from Mac to Windows 8 (whereas it is capable of syncing between Windows 7 and Windows 8). A: This Apple Support Document doesn't seem to mention this, but Apple's own 2d92ce491b
