What's New in the ConnectCode Label Software?

Serial Number Editor is a handy and easy to use utility to edit text and serial numbers from the screen. You can insert the text from the clipboard, or import your own text file from the disk. You can even save and load your text to a file and import it again. Description: HandyTime is a simple to use application that gives you a quick view of the time and date in your computer's system tray. You can view the time in your computer's local time, or in any of the supported time zones. HandyTime can also display the date. HandyTime does not cover the date in your calendar, so you'll need to install a program like iCal from Apple, or the Windows Date and Time Control, if you want to use HandyTime as a replacement. A-Z Software Product Description A-Z Software - A-Z Software is a collection of PowerPlant Software Suite tools designed to help you build custom forms with complex layout options. From just inserting text, to dynamically adding cells that hold your data and images, PowerPlant Suite helps you build forms quickly and easily, so you can spend more time filling out your forms, instead of worrying about how to create complex forms. Features: * Add text, images, html and more * Change line color, margins, text size and color * Insert shapes and images * Create and edit tables * Inserting and arranging custom shapes like textbox, progress, combo box * Custom styles to apply to any field, like text color and background color * Supports almost all standard text boxes * Insert text into cells, rows and columns * Supports both standard and "new" field types * Supports all of Microsoft Office, like Word and Excel * Supports almost all standard field types * Ability to dynamically add fields using advanced data binding * Ability to set different types of data into each field, like dates, numbers, text, multiline and more. * Ability to specify an "init only" field which will not be editable, but which will trigger dynamic value changing events to perform calculations and actions. * Ability to view and sort database fields * Supports LINQ to SQL A-Z Products Description A-Z Products is a collection of small programs for creating forms for Microsoft Access applications. Using A-Z Forms Suite, your forms can be easily created with design templates, many of which are supplied. While A-Z Forms Suite allows you to create forms using standard Access fields, it also gives you the ability to add your own field types, so that you can create any type of form you want. A-Z Toolbox Description A-Z Toolbox is a collection of PowerPlant Software Suite tools designed to help you build custom forms with complex layout options. From just inserting text, to dynamically adding cells that hold your data and images, PowerPlant
